

SECURITY CITY ONLINE

"WHERE SECURITY SOLUTIONS COME TO LIFE..."

VIRTUAL WORLD

This is our virtual world built around true-to-life scale buildings and ready to showcase every aspect of what the security industry has to offer - in the context of a discoverable 3D built environment that is open 24/7.

Start with a single HotSpot and feature your hottest product, where it will be used.

- Active global audience 24/7
- Carbon neutral 3D sales spaces
- Open for live sales & events
- Immersive browser experience

CALLING FOR THE LATEST PRODUCTS...

As a virtual environment the opportunities to show products and services in action is literally limitless: if you have an application scenario, we can build it at **Security City Online!**

As part of Security on Screen we are actively looking for the latest innovations in terms of services, hardware and software to promote to our huge online audience.
